

MAINE

Pensionomics 2023:

Measuring the Economic Impact of DB Pension Expenditures

Key Findings

Benefits paid by state and local pension plans support a significant amount of economic activity in the state of Maine.

Pension benefits received by retirees are spent in the local community. This spending ripples through the economy, as one person's spending becomes another person's income, creating a multiplier effect.

In 2020, expenditures stemming from state and local pensions supported...

9,654 jobs that paid \$498.9 million in wages and salaries

\$1.5 billion in total economic output

\$229.2 million in federal, state, and local tax revenues

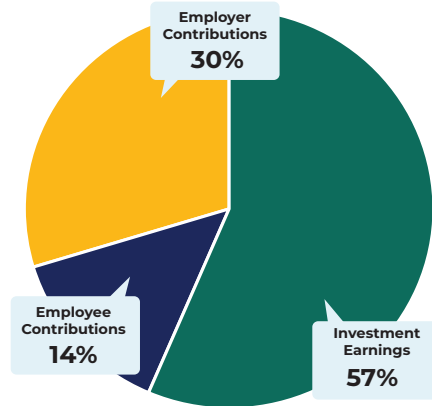

... in the state of Maine.

Each dollar paid out in pension benefits supported \$1.45 in total economic activity in Maine.

Each dollar "invested" by Maine taxpayers in these pension plans supported \$4.84 in total economic activity in the state.

Overview

Expenditures made by retirees of state and local government provide a steady economic stimulus to Maine communities and the state economy. In 2020, 47,350 residents of Maine received a total of \$1.1 billion in pension benefits from state and local pension plans.

The average pension benefit received was \$1,853 per month or \$22,236 per year. These modest benefits provide retired teachers, public safety personnel, and others who served the public during their working careers income to meet basic needs in retirement.

Between 1993 and 2020, 30% of Maine's pension fund receipts came from employer contributions, 14% from employee contributions, and 57% from investment earnings.* Earnings on investments and employee contributions—not taxpayer based contributions—have historically made up the bulk of pension fund receipts.

Impact on Jobs and Incomes

Retiree expenditures stemming from state and local pension plan benefits supported 9,654 jobs in the state. The total income to state residents supported by pension expenditures was \$498.9 million.

To put these employment impacts in perspective, in 2020 Maine's unemployment rate was 5.0%. The fact that DB pension expenditures supported 9,654 jobs is significant, as it represents 1.4 percentage points in Maine's labor force.

Economic Impact

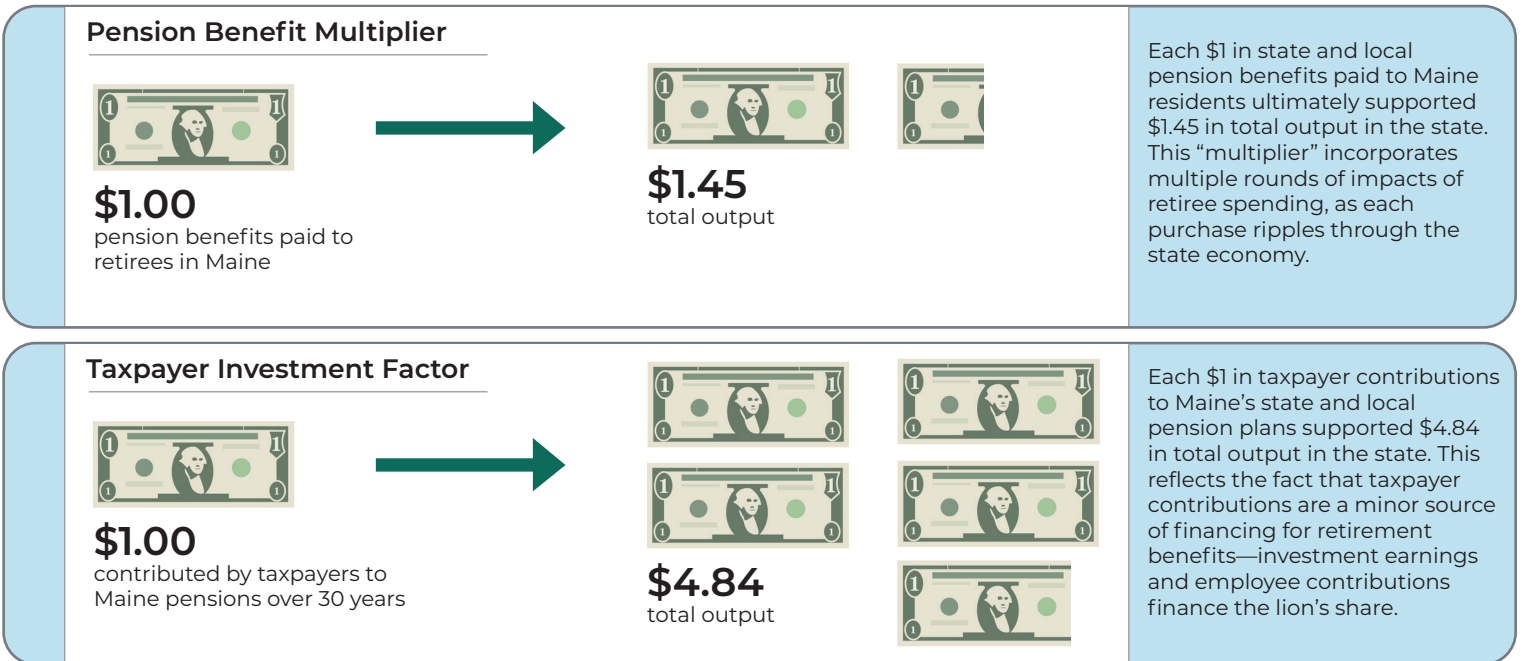

State and local pension funds in Maine and other states paid a total of \$1.1 billion in benefits to Maine residents in 2020. Retirees' expenditures from these benefits supported a total of \$1.5 billion in total economic output in the state, and \$896.4 million in value added in the state.

Impact on Tax Revenues

State and local pension payments made to Maine residents supported a total of \$229.2 million in revenue to federal, state, and local governments. Taxes paid by retirees and beneficiaries directly out of pension payments totaled \$39.0 million. Taxes attributable to pension expenditures in the local economy accounted for \$190.1 million in tax revenue.

Federal Tax	\$61.7 million
State/Local Tax	\$167.4 million
Total	\$229.2 million

Economic Multipliers

*Caution should be used in interpreting these numbers. See the Technical Appendix of the full *Pensionomics* report for details.

Economic Impacts by Industry Sector

The economic impact of state and local pension benefits was broadly felt across various industry sectors in Maine. The five industry sectors with the largest employment impacts are presented in the table to the side.

Industry	Employment Impact (# Jobs)
Hospitals	783
Limited-service restaurants	426
Full-service restaurants	375
Retail -food and beverage stores	346
Offices of physicians	341

Industry totals include the first round of impacts from pension payments to state residents, and do not account for recaptured “leakage” to or from other states.

Economic Impacts by Occupation Category

The pension benefits in Maine supported jobs in every civilian job category, as shown in the table below.

Occupation Category	Wage and Salary Employment	Wage and Salary Income	Supplements to Wages and Salaries	Employee Compensation
Sales and Related Occupations	957	\$35,424,522	\$6,675,394	\$42,099,917
Office and Administrative Support Occupations	949	\$41,340,049	\$8,454,622	\$49,794,671
Food Preparation and Serving Related Occupations	947	\$22,323,507	\$4,017,300	\$26,340,808
Healthcare Practitioners and Technical Occupations	825	\$77,768,029	\$16,876,413	\$94,644,442
Transportation and Material Moving Occupations	629	\$24,287,636	\$4,926,925	\$29,214,561
